Why

*Trade means jobs, but **trade also means security**. The time has come for all of us to urge the swift adoption of the [TPP].*

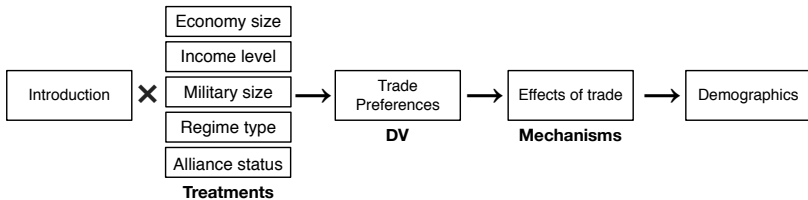

*If countries want to do business with the United States, they obviously will be **working with our allies** and others to cut off North Korea economically.*

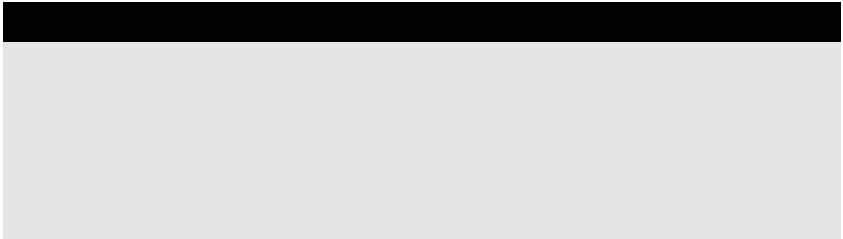

*[China has] taken advantage of us like nobody in history. They have; it's the greatest theft in the history of the world.... **They've taken our jobs.***

*America should write the rules. **America should call the shots.** Other countries should play by the rules that America and our partners set.*
